EDUCATION

Kaziranga University

Computer Science and Engineering Bachelor of Technology

CGPA: 7.17

Jorhat, Assam

August 2018 - July 2022

Reliance College Junior

Science Higher Secondary Education

Golaghat, Assam

July 2017 - July 2019

EXPERIENCE

UpskillMafia | Mentor

Online | April 2024 - Current

I became a mentor at UpskillMafia after I completed the Assignments given to me.

As a mentor I have the task of gathering team for hackathon projects and also participating in the hackathons. Also I have the responsibility to check web development assignments submitted by students.

SKILLS

Programming Languages: Java, SQL, JavaScript, Typescript

Libraries/Frameworks: SpringBoot, React, Node JS, Express JS, Tailwind, Bootstrap

Tools / Platforms: IntelliJ Idea, Apache NetBeans, VS Code, Postman, Figma, Canva

Databases: MySQL, MongoDB Atlas

PROJECTS / OPEN-SOURCE

E-commerce Application | Link

Java, SpringBoot, MySQL, React, Tailwind

This Java Full Stack project is an e-commerce platform designed to facilitate transactions between sellers and customers. It provides APIs for sellers to add their details and items, customers to add their details, manage their carts, and complete transactions.

Vaccination-Bookin-System | Link

Java, SpringBoot, MySQL

Created a Vaccination Booking System using Spring Boot.

Features for administrators and users to book appointments and manage centers.

Utilized Spring Framework for CRUD operations via RESTful APIs.

Documented APIs using Swagger for easy testing and exploration.

Task Manager Application | Link

React, Node JS, Express JS, MongoDB Atlas

This is MERN project where users can add, update and delete tasks.

The tasks can be displayed based on their status in different columns and updating a task status will move it to the required column. Single column display is available for mobile view.

Deployed Link can be found in the description of repository.

Quiz-Whizz | Link

React, Tailwind, Node Js, Express Js, MongoDB Atlas

Quizz-Whizz is a quiz application built with MERN technologies that allows users to create their own custom quizzes and play quizzes created by others.

Deployed Link can be found in the description of repository.
